ABOUT ME

I am a professional and creative Graphic Designer, as well as the Founder and Director of Hela Graphic. With extensive experience in the design industry, I have successfully delivered high-quality graphic and video design services to hundreds of companies and clients. I am highly proficient in industry-standard design software and specialize in creating modern, impactful, and brand-focused visual solutions. In addition, I am an experienced Web Designer capable of developing visually appealing, user-friendly, and responsive websites. Furthermore, I possess advanced expertise in Artificial Intelligence (AI), particularly in Prompt Engineering, enabling me to effectively leverage AI tools to produce innovative and high-quality creative outputs. I am committed to quality, innovation, and client satisfaction, consistently striving to deliver work that meets international standards.
